OBJECTIVE

Junior Standing Freshman in University, seeking Summer internship roles

EDUCATION

Bachelors in Computer Science, Seattle University   Expected 2025
Relevant Coursework: **Data Structures and Algorithms**
DTA Associates in Computer Science, Highline College   Sep 2020 - Aug 2022
Relevant Coursework: **Java I-II, Intro to Python, and Web Development**

EXPERIENCE

Product Development Intern   Jun 2022 - Sep 2022
Floop   *Work From Home*

- Developed iOS app where education researchers and practitioners can meet
- Utilized Slack and Notion to stay on track with deadlines
- Worked with PMs and fellow interns to gauge my understanding of app expectations

Student Advisor   Oct 2020 - Aug 2021
Rainier Scholars   *Seattle, WA*

- Cultivated a positive experience for upcoming 6th graders
- Addressed concerns of the students and come up with action plans in addressing those concerns
- Assisted teachers by responding guiding tutoring sessions to questions and grading assignments

PROJECTS

- **Database File Manager** Built a tool to read and write entries from the World Health Organization's Covid tracker. The implementation was done using the Hashtable data structure utilizing Separate Chaining for collision avoidance.
- **Cars For Cash Website** Built a website using HTML, CSS, and JavaScript that allows users to sell their used cars for cash. The website would serve as a middle man for these transactions.

EXTRA-CURRICULAR ACTIVITIES

- Member of Black Student Union, African Student Association, and Muslim Student Association at Seattle University
- Rainier Scholars student since 2014, recently offered to TA their Computer Science

SKILLS

Technical Skills	Proficiency in Java, C++, Python, and JavaScript
Soft Skills	Collaboration, Time Management, Self Awareness, Accountability
Relevant Tools	VS Code, X Code, Slack, Notion
